

Unit 6 – Reflection:

Reflecting on this week's studies, I felt under pressure as I had to conduct extensive research for the literature review assignment in the upcoming unit. In addition, I spent a significant amount of time on the Summary Measures Worksheets exercise, trying to figure out how to provide the interpretation of the results accurately. Initially, I had a difficult time understanding the concept of the exercise, and it was challenging. However, I finished this week without being able to finish this exercise due to its complexity, which will require a bit more time.
